

## MAKE PLANS NOW TO ATTEND Brocade Technology Day on April 19

Learn strategies to improve the performance and harness the power of your Networks and Data Centers. Hear the latest developments in industry innovation that will help you address your organization's growing needs in a climate of budgetary restraint.

Join us for a day of useful strategies and updates from industry leading experts:

- **Data Center Fabrics:** Learn how Brocade Virtual Cluster Switching™ (VCS) overcomes the limitations of conventional Ethernet networking by applying the reliability, flexibility, and scalability of fabric switching to data center architectures, helping you seamlessly transition your existing network architectures to converged data center fabrics.
- **Disaster Recovery/COOP:** For today's mission critical data centers, continuity of operations / disaster recovery is an essential requirement. One of the persistent challenges for IT administrations is to create a workable DR/COOP plan that withstands the constant pressure from budgetary constraints and the steady growth of data requiring protection. Hear how to increase system resiliency and maximize data availability to achieve your organizational requirements.
- **Virtualization and VDI:** Organizations that need to reduce their overall IT expenditures and enhance security and availability are investigating a variety of data center technology solutions, such as Virtual Desktop Infrastructure (VDI) and converged networks. See how the combination of VDI's powerful management, OS independence, and per-user virtualization schema deliver the advantage of a more powerful network that can gain back up to 40 percent of your unused internal bandwidth while still delivering lossless storage transport.

### DATE

Tuesday, April 19

### LOCATION

Hawaii Prince Hotel Waikiki  
100 Holomoana Street  
Honolulu, HI 96815

### AGENDA

8:30-9:00 am	Registration/Continental Breakfast
9:00-9:15 am	Welcome
9:15-10:15am	Data Center Fabrics and VCS: simplicity, scalability, and cost efficiency
10:15-10:30am	Break
10:30-11:30am	Non-Stop Networking: Strategies for resilient DR/COOP
11:30-12:30pm	Networking Lunch
12:30-1:30pm	Harnessing the Power of Virtualization and VDI
1:30-2:00pm	Industry Expert Panel Q&A
